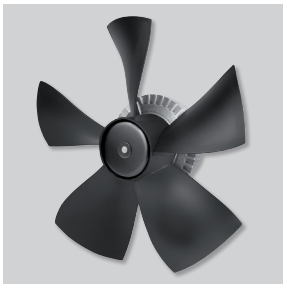
Range of cylindrical cased axial flow fans with fan casing protected against corrosion by cataforesis and polyester paint finish, with low noise level and dynamically balanced.

Motors
Brushless EC motor with high performance and low consumption, supply 230V±10% 50/60Hz, IP44, ball bearings and thermal protection included. Speed adjustable 100% via potentiometer located in the terminal box or via external control REB-ECOWATT type. Analogue input remote control with a 0-10V external signal.
Working temperature from -20ºC to +40ºC.

Additional information
Air direction: form (B) configuration (impeller over motor).

Corrosion resistance
Fan casing and support protected by cataforesis and black polyester paint finish.

Terminal box IP65



High efficiency "AMAX" impeller
Designed to ensure the highest and most efficient airflow performance with the lowest noise level.
